### **WRITTEN ANSWERS TO UNSTARRED QUESTIONS**

#### **Fall in the production of foodgrains**

2016. SHRI JIBON ROY: Will the Minister of AGRICULTURE be pleased to state:

(a) whether it is a fact that the growth rate of production of foodgrains is going down in comparison to the level of population growth, since the process of reform was undertaken;

(b) reasons for decline despite the fact that there was by and large fairly good rainfall during the past years; and

(c) steps Government propose to take for reversing the trend?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI S.B.P.B.K. SATYANARAYANA RAO): (a) According to Technical Group on Population Projection constituted by the Planning Commission, the annual compound growth rate of population in the decade of 90s (1991-2001) is estimated at 1.79% per annum whereas compound growth rate of foodgrains production (during 1990-91 to 1999-2000) is estimated at 1.97%.

(b) Does not arise.

(c) The production of foodgrains is continuously monitored and various steps have been taken to achieve higher production levels. These include, *inter-alia*, implementation of Centrally Sponsored Integrated Cereal Development Programmes in Rice/Wheat/Coarse Cereals Based Cropping System area and National Pulses Development Project. Under these programmes/project, incentives

are provided to fanners for use of high yielding varieties of seeds, application of integrated pest management, propagation of scientific water management including micro irrigation and improved farm implements. In addition field demonstration on farmers holding including training of farmers and farm labourers are organised for effective transfer of technology.
